

ALIBEN AMPAO

Marketing Technology & Automation Specialist

Philippines | Remote | aben5423@gmail.com | +639059559108

Portfolio: aben5423.github.io/alibenampao/

PROFESSIONAL SUMMARY

Marketing Technology & Automation Specialist with hands-on experience building and managing the systems that support digital businesses. Skilled in CRM and email automation, lead funnels, payment and subscription systems, membership platforms, websites, analytics, advertising tracking, DNS, hosting, and technical troubleshooting. I connect platforms, automate repetitive processes, and keep digital workflows reliable from lead capture through customer access.

CORE COMPETENCIES

CRM & Automation

Keap / Infusionsoft, email automation, lead nurturing, tagging, onboarding

Integrations

Zapier, triggers, actions, webhooks, data synchronization

Tracking & Ads

Google Tag Manager, Google Analytics, Google Ads, Meta Ads

Funnels & Payments

ClickFunnels, Stripe, checkout flows, subscriptions, Kajabi

Web

WordPress, HTML, CSS, JavaScript, GitHub, website deployment

Infrastructure

Cloudflare, DNS, cPanel, SSH, domains, hosting, troubleshooting

PROFESSIONAL EXPERIENCE

Marketing Technology & Automation — Hands-on Digital Operations

- Build and troubleshoot automated workflows connecting CRM, email marketing, funnels, payments, membership systems, and customer access.
- Configure Keap / Infusionsoft for lead capture, contact management, tagging, email follow-up, customer onboarding, and automated workflows.
- Configure ClickFunnels lead-generation funnels, checkout pages, order forms, and integrations with CRM and membership platforms.
- Manage Stripe payment and subscription systems and connect purchase events to customer access and downstream automation.
- Configure Kajabi membership environments and customer access workflows for digital products and training programs.
- Build and manage WordPress websites using custom HTML, CSS, and JavaScript, with GitHub-based deployment and version management.
- Manage Cloudflare DNS, cPanel, domains, SSH, hosting/server tasks, and website/email infrastructure.
- Configure Google Tag Manager and Google Analytics tracking, and support Google Ads and Meta Ads campaign infrastructure.
- Troubleshoot cross-platform issues involving automation, access, domains, DNS, websites, email, and third-party integrations.

SELECTED PROJECTS

01 Automated Purchase & Onboarding System

Connected ClickFunnels, Zapier, Keap, and Kajabi to automate the workflow from purchase through CRM tagging, customer communication, and membership access.

02 Payment Infrastructure

Configured ClickFunnels, Stripe, and Kajabi for checkout flows, recurring payments, subscription management, customer access, and payment automation.

03 Lead Capture & Marketing Automation

Built a ClickFunnels lead opt-in and funnel workflow connected to Keap for lead capture, CRM organization, tagging, and automated marketing email follow-up.

04 Paid Advertising & Conversion Tracking

Worked across Google Ads, Facebook / Meta Ads, and Google Tag Manager to support advertising setup, tracking infrastructure, and conversion measurement.

05 Website Development & Infrastructure

Built and managed a WordPress website environment with custom HTML/CSS/JavaScript, GitHub deployment, Cloudflare DNS, cPanel, SSH, domain configuration, and technical troubleshooting.

TECHNICAL STACK

Keap / Infusionsoft • Zapier • ClickFunnels • Kajabi • Stripe • WordPress • HTML • CSS • JavaScript • Google Tag Manager • Google Analytics • Google Ads • Meta Ads • Cloudflare • cPanel • SSH • DNS • GitHub
